

Cosby in November of this year. Anders was keen to point out that he has received a great welcome from the club staff and all its members here at Cosby, and one of the reasons he made the switch was because he was so impressed with the club's ambitions and felt that they matched his own perfectly. Cosby Golf Club has already received the prestigious golf mark accreditation, and this is something everyone is keen to build on. Anders who was born in Sweden and moved to England aged 8 was at Kilworth Springs for 17 years and was head pro there for the last 11 years, he has devoted much of that time to teaching. Anders teaches many of the country's top amateur golfers including Meghan Maclaren the England school girls captain of Wellingborough Golf Club. He also teaches Leicestershire's blind golfers and was recently at the world blind golf championship. Anders has built up a nationwide client base that come to him from all parts of the country for lessons and his reputation is second to none.

Meghan Maclaren receiving a lesson.

The teaching centre here at Cosby is adjoined to the 10 bay driving range, but still has its own private bay so when the weather is good you can shoot balls out on to the range and in the winter months the front can be completely closed down and you can play into the net. The bay has carefully placed flood lights to give the best picture results when filming and is laid wall to wall in the best artificial grass.

This place is something else and Anders alongside Cosby Golf Club have done a fantastic job in creating such a great facility.

"Anders has helped me for over 10 years now and in that time I have competed in Blind Golf tournaments all over the World and most recently The Blind World Championship. Without his help I would not be the player I am today"-Jim O'Brien- Leicestershire and England Blind Golfer.

"He improves golfers of all standards faster than just about anyone I have ever met"-Jonnie Irwin - TV Presenter Channel 4 A Place in the Sun.

"I have had lessons with countless Pro's with little success until I discovered Anders. He has helped me reduce my handicap from 20 to 12. It is well worth the 4 hour round trip to go and see him!" Vicki Hunt- Hunstanton Golf Club

Anders has taught multiple tour winners in the past and was named by "Today's Golfer." as one of the top 40 teaching professionals in the country.

When you combine the teaching ability of Anders and the facilities he has at Cosby Golf Club, you really do get a winning combination.

Anders has been keen to point out though that it is not all top golfers that he teaches, the facility is open to everyone whether you are just starting in the game or you have been playing for many years. The facility is also open to both members and non members of Cosby Golf club.
